HIGHLY IMPORTANT NEWS.

TULLABONA, April 14. Wheeler confirms the reported capture of two trains containing, besides army stores, previsions, &c., \$30,000 in Green Backs, A number of prisoners, including three

officers of Rosencrantz's staff, were cap-It is estimated that thirty of the enemy were killed and about fifty wounded.

Our loss consisted only in a small number being wounded.

FROM CHATTANOOGA.

CHATTANOOGA, April 14. Rumors of Van Dorn's fight at Franklin prove to have been exaggerated. The loss is only fifty on each side, and only a portion of Freeman's battery was captured by the enemy, which was immediately retaken.

All quiet along the lines to day. Maj. Dick McCann has captured another train on the Nashville & Chattanooga railroad, and has also destroyed a long wagon train.

Two more gunboats and three transports, have been destroyed on the Cumberland river by Gen. Wheeler's command.

CONGRESSIONAL.

RICHMOND, April 14. The Senate was chiefly occupied to-day in discussing the bill to confiscate leasehold interests and shares or stock owned by alien enemies in Telegraph Lines .-The further consideration of the Bill was postponed until to morrow.

Rust in Wheat — It has been long known and the idea acted on among the Spanish agriculturists in Texas and Mexico, that the rust in wheat is produced by showers or heavy dews followed by a hot sun, or heavy dews followed by a hot sun during that period of vegetation when the wheat is in the bloom and milk. The etfect of the sun upon the wet plant produces the rust. To avoid this result, two men take a heavy rope, say twenty or thirty feet long, or longer, and walking at that disapril 10-dit.

TERMS FOR PAPERS KEELY BULLETIN:

CHARLOTTE

Wednesday Morning, April 15, 263.

The President's Address. Together with the suggestions of the Secretary of War, we give a good deal of our space to the address of President Davis to the Confederate States - This, as all papers that emenate from him, is characterized by apparent deep concern, patient thought and elequent ability. It is an appeal, worthy of his head and heart, to the good and true men" of the land. Will it be heeded? We cannot doubt for a moment but that a response will swell up as the gathering of many waters from every point of the entire country. We cannot doubt for a moment but that the men to whom the appeal is made-the men who are expected, and whose reasonable duty it is, to grow and furnish the necessary subsistence supplies for our army-will, in the spirit of noble and sublime patriotism, ignore every consideration and design they may have hitherto entertained with the view of making money by the cultivation of other than provision crops, and with devoted hearts and skillful hands, bend themselves to the delightful labor "con amour," for the salvation of our young Confederacy! Let it be seen to at once, that

every one who is capable of growing a bush-

elof corn, or potatoes. or beans; or raising

of pigs, or sheep, or goals, or hogs, or cat-

tle; in a word, anything that will nourish

or sustain life, do so without delay. Our

safety demands it, for the President as-

sures us that delinquency in these respects

may involve the no le structure our states.

men and soldiers have well nigh firmly set

upon a rock, in ruin! The thought is in-

tolerable. The heart grows sick in the

contemplation. It must not be. Do you want your names, illumined by your deeds, to cluster in the after to-bewritten pages of these times, in company with hose of the devoted parriot children of our revolution, and command the revered homage of your descendants, then to the work of food at once to day; spare not a single hour. Fail in this, and be tombstone of the Southern Confederacy by the hands of our exultant foes-"Died, Abner, as the fool dieth; his hands were not bound, nor were his limbs jettered;" -and the generous of the posterity of all nations will shed a tear over our patriots fate, while they but execrate your memory.

On Monday a lot of beeves, grown by A. exhibition at the public square. We regret-the scales being out of order-their gross weight could not be ascertained .-We confess, however, we have never seen anything of the kind in this county at all comparable to them; indeed, we doubt whether such cattle-for bulk and fatness -have ever been produced in the State .-

Beef.

Well. Mr. Davidson deserves to have fat things, and to erjoy the fat of the land, for out of his abundance many of the poor of his neighborhood are rejoiced daily by cheap, and in many instances, gratuitous subsistence supplies, Those beeves, however, really feasted our eyes, but, as yet, we have had no "inard" truition, nor surloin or tit-bit to Cooke. They are, we understand, to be butchered for the market, and to be sold at 40 cents per pound, when the clever proprietor could easily realize \$1 25 at another point of easy approach. One was sold out in quantities to safety chiefly of a careful concealment of suit buyers on yesterday; we didn't know it in time, but hope to be about when the next "whistle blows "

Indiana.

The following extract, from the Cincinnati Gazette, is from a letter written by citizen of Indiana to his Representative in Congress, trying to devise measures for the suppression of the mutinous spirit prevailing in that State. The writer says:

The people are alarmed at the measures now on foot and developed by Rebel sympathizers. We greatly need, in form for distribution, a detence of the President's proclamation, and the refutation of the charge that this is an Abolition war. Such charges are educating the public mind for resistance to a draft. Be assured that there is great danger of their doing their work effectually. No threat is even now more common than that of resistance to any draft; and it is no idle one, either. It is inevitable, without a great change in public sentiment, and it is useless to disguise it. Deserters already find armed protection in this county. It is so in almost every Des mocratic county in Indiana. A reaction seems taking place, but unless stimulated it will be only temporary,

Under the dreaded apprehension that civil war is at our doors, the people are ready to accept almost anything that would promise even temporary relief from such calamities a, that would inflict. Taking advantage of this, the Democrats are proposing to circalate petitions for an extra session of Congreas, to propose some measures of compromise-telling the people that if offered and refused by Rebels, it will unite us at civil war. Think of it as we will, all men will rush into such a policy. If the President, on such application, shall refuse to into perclution.

federate

In compliance with the request of Congress, contained in resolutions passed on the fourth day of the current month, I intion and inture prospects of our country, and to the duties which patriotism imposes on us all during this great struggle for our homes and our liberties.

These resolutions are in the following

OINT RESOLUTION RELATING TO THE PRO-DUCTION OF PROVISIONS

Whereas, a strong impression prevahrough the country that the war now being waged against the people of the Confederate States may terminate during the present year; and whereas this impres is leading many patriotic citizens to engage largely in the production of cotton and tobacco, which they would not otherwise do; and whereas, in the opinion of Congress, it is of the utmost importance not only with a view to the proper subsis tence of our armies, but for the interest and welfare of all the people, that the argricul tural labor of the country should be employed chiefly in the production of a supply of food to meet every contingency

Therefore. Resolved, by the Congress of the Con federate States of America, That it is the deliberate judgment of Congress that the people of these States, while hoping for peace, should look to prolonged war as the only condition profferred by the enemy short of subjugation; that every preparation necessary to encounter such a war should be persisted in, and that the amplest supply of provisions for armies and people should be the first object of all agriculturists; wherefore, it is earnestly recommended that the people, instead of planting cotton and tobacco, shall direct their argricultural labor mainly to the production of such crops as will insure a sufficiency of food for all classes and for every emergency, thereby, with true patriotism, subordinating the hope of gain to the good of the country.

SEC. 2. That the President is hereby re quested to issue a proclamation to the peo ple of these States, urging upon them the necessity of guarding against the great perils of a short crop of provisions, and setting forth such reasons therefor as his judgment may dictate.

Fully concurring in the views thus ex pressed by the Congress, I confidently appeal to your love of country for aid in carrying into effect the recommendations of your Senators and Representatives. We have reached the close of the second

year of the war, and may point with just pride to the history of our young Confederacy. Alone, unaided, we have met and overthrown the most formidable combination of naval and military armaments that the lust of conquest ever gathered together for the subjugation of a free people. began this struggle without a single gun affoat, while the resources of our enemy Brevard Davidson, of this county, were on enabled them to gather fleets which, according to their official list, published in August last, consisted of 437 vessels measuring 340,036 tons, and carrying 3,268 guns. Yet we have captured, sunk or desstroyed a number of these vessels, including two large frigates and one steam sloop of war, while four of their captured steam gunboats are now in our possession. adding to the strength of our little navy which is rapidly gaining in numbers and efficiency. To oppose invading forces. composed of levies which have already exceeded thirteen hundred thousand men we had no resources but the unconquerable valor of a people determined to be free, and we were so desitute of military supplies that tens of thousands of our citizens were reluctantly refused admission into the service from our inability to provide them with arms, while for many months some of our important strongholds owned their the fact that we were without a supply of powder for our cannon. Your devotion and patriotism have triumphed over all these obstacles, and called into existence the munitions of war, the clothing, and the subsistence which have enabled our soldiers to illustrate their valor on numerous battle fields and to inflict erushing defeats. on successive armies, each of which an arrogant foe londly imagined to be invinci-

> The contrast between our past and present condition is well calculated to inspire full confidence in the triumph of our arms. At no previous period of the war have our forces been so numerous, so well organized and so thoroughly disciplined, armed and equipped, as at present. The season of high water on which our enemies relied to enable their fleets of gunboats to penetrate into our country and devastate our homes. is fast passing away. Yet our strongholds on the Mississippi still bid defiance to the foe, and months of costly preparations for their reduction has been spent in vain Disaster has been the result of their every effort to turn or to storm Vicksburg and Port Hadson, as well as every attack on our batteries on the Red river, the Tallas hatchie, and other navigable streams .-Within a lew weeks the falling waters and the increasing heats of summer will complete their discomfiture and compel their baffled and defeated forces to the shandon. ment of expeditions on which was based their chief hope of success in effecting our PLAN SUGGESTED BY THE SECRETARY subjugation.

We must not forget, howver, that the war is not yet ended, and that we are still or ward, select at public meeting, as early confronted by powerful armies, and three tened by numerous fleets; and that the Government which controls those fleets duties hereinafter mentioned. home, and avert the crimes and horrors of confronted by powerful armies, and threeand armies is driven to the most desperate call Congress together, they then intend to efforts to effect the unholy purpose in which to ascertain from each citizen in the councexplode the magazine and passipitate us it has thus been defeated. committed, the savage barbarities which it has encouraged, and the crowni infamy of its attempt to excite a servile opulation to the massacre of our wives, our daughters, and our hotples children. With such a contest before us, shere

but one danger which the Government of your choice regards with apprehension and to avert this danger it appeals to the never failing patriotism, and spirit of self sareifice which you have exhibited since the beginning of the war. The very unfavorable season, protracted droughts of last year, reduced the havests on which we depended for be-low an average yield, and the deficiency was unfortunately still marred in the Northern portions of the Confederacy. where supplies were specially needed for the army. If through a confidence in early peace, which may prove defusive, our fields should be now devoted to the pro duction of cotton and tobacco, instead of grain and live stock, and other articles essary for the subsistence of the pe and the army, the consequences may prov serious, if not disasterous, especially sho ne present season prove as un'avorable as the last. Your country, therefore, ap peals to you to lay aside all thought of gain, and to devote yourselves to securing your liberties, without which those gains would be valueless. It is true that the wheat harvest in the more southern States which will be gathered next month, promses an abundant yield; but even it this romise be fulfilled, the difficulty of transportation, enhanced as it has been by an unusually rainy winter, will cause embarrassments in military operations and suffering among the people, should the crops in the middle and Northern portions of the Confederacy prove deficient But no uneasiness need be felt in regard to a mete supply of bread for man. It is for the large amount of corn and forage required for the raising of live stock, and for the supply of the animals used in military operations that your aid is specially required. Those articles are too bulky for distant transportation, and in them the deficiency in the last harvest was most felt. Let your fields be devoted exclusively to the production of corn, oats, beans, peas, potatoes, and other food for man and beast, Let corn be sown broad-cast for fodder, in immediate proximity to railroads, rivers and cannals, and let all your efforts be directed to the prompt supply of these articles in the districts where our armies are operating. You will thus add greatly to their efficiency, and furnish the means those prompt and active movements which have hitherto stricken terror into our enemies, and secured our most brilliont tri-

Having thus placed before you, my contrymen, the reason for the call made on you for sid in successing the wants of the in behalf of the brave soldiers now confronting your enemies, and to whom your Government is unable to furnish all the conforts they so richly merit. The supply of meat for the army is deficient. This deficiency is only temporary for measures have been adopted which will, it is believed soon enable us to restore the full ration. But that ration is now reduced at times to one-half the usual quantity in some of our armies. It is known that the supply of meat throughout the country is sufficient tor the support of all, but the distances are so great, the conditions of the roads has been so bad during the five months of winter weather through which we have just passed, and the attempts of groveling speculators to forestall the market and make money out of the life-blood of our detenders, have so influenced the with drawal from sale of the surplus in the hands of the producers that the Government has been unable to gather full supplies. The Secretary of War has prepared a plan, which is appended to this address, by the aid of which, or some similar means to be adopted by yourselves, you can assist the officers of the government in the purchase of the bacon, the pork and the beef, known to exist in large quantities in different parts of the country,-Even if the surplus be less than is believed, is it not a bitter and humiliating reflection that those who remain at home, secure from hardships and protected from danger, should be in the enjoyment of abundance, and that their slaves, also should have a full supply of food, while their sons, brothers, husbands and fathers health and efficiency depend.

Entertaining no fear that you will either misconstrue the motives of this address or fail to respond to the call of patriotism I have placed the facts fully and frankly before your. Let us all unite in the performance of our duty each in his sphere; and with concerted, persistent, and well directed effort there seems little reason to doubt that under the blessing of Him to whom we look for guidance, and who has een to us our shield and our strength, we shell maintain the sovereignty and indeendence of these Confederate States, and transmit to our posterity the heritage bequeathed to us by our fathers.

JAMES A. SEDDON, Secretary of War.

Letter from Gov. Harris, of Tenn The following letter from Gov. Harris, of Tennessee, will be read with interest at this time. It is addressed to the editor of the Winchester (Tenn.) Bulletin;

TULLAHOMA, Tenn., April 3, 1863. Mr. Editor: My attention has been called to the tellowing paragraph in your issue of the 21st ultimo:

"It has been settled that there will be no election for Governor in Tennessee, in August next, if the Federal army continue to. hold the Middle and West sections of that State. By virtue of the Constitution Gov. Harris holds his offices until his successor is elected.

A similar paragraph appears in the Mem-

phis Appeal of the 27th ult. Allow me to suggest, that it is settled by the Constitution of Tennessee that there shall be an election for Governor, Senators and Representatives, on the first Thursday in August, and there is no power in or out of the State which can change or annul this constitutional requirement.

The election should by all means, and creately will be held at the time fixed by the Constitution. We should, therefore, at the proper time, take all necessary preparatory steps.

Forgetting all the differences of opinion upon minor questions of the past, we should select a good and true man for each position, in whose support all true patriots can cordially unite.

If we will present one and but one, such candidate in each elective district throughout the State, Federal bayonets cannot prevent the election of sound Southern rights men to the positions of Governor, representatives in Congress and the General Assembly.

The people of that portion of Tennessee within the enemy's lines, present the proudest spectacle of heroic firmness in their patriotic devotion to our cause. We may confidently rely upon their cordial cooperation so far as they may be permitted to vote or take part in the election.

But long before August, the rivers will have fallen to low water mark, giving us an open field in which to meet the enemy. I feel that I hazard very little in expressing the confident belief, that before election day, we will have crushed or driven from our State the miserable merceparies and vandals who have so long plundered and oppressed a brave, true and patriotic people, leaving every portion of the State free and untrammeled, in the exercise of the elective franchise.

Very respectfully, ISHAM G. HARRIS.
